*Default product in which a participant is enrolled, unless one has affirmatively selected a different product or has opted out of the Sudbury CEA program.

^To learn more about the State's renewable energy standards, including MA Class I, see our flyer here.

**NEMA – Northeastern Massachusetts Load Zone

The Sudbury CEA program seeks to provide price stability and average savings over the duration of the program, but because future Basic Service rates are not known beyond months shown in table, there is no guarantee of savings.

Rates apply to service beginning and ending on the days of the month that your meter is read in your service area.
