Announcement to local/regional media

Sudbury Community Electricity Aggregation Renewed!

Published November 2, 2023 | Energy and Sustainability Committee | Updated July 25, 2024

Sudbury Community Electricity Aggregation is announcing the renewal of the program through the term December 2023 – December 2025. **Most participants do not need to take any action to remain in the program and receive the new pricing for the product in which they are currently enrolled. Read on for more information.**

A majority of participants in Sudbury’s program use “Sudbury Standard” (formerly Sudbury Green) which provides more renewable energy than Eversource’s Basic Service. “Sudbury Standard” and “Sudbury Basic” participants will automatically receive the new program pricing on their December meter read. Due to requirements from the Massachusetts Department of Public Utilities, participants in “Sudbury Plus” (formerly Sudbury Class I Green) must affirmatively re-enroll in a product of their choosing to remain in the program.

If you are currently enrolled in “Sudbury Standard” or “Sudbury Basic” and want to stay in that program, then you do not need to take any actions in order to stay enrolled. If you are currently a “Sudbury Plus” participant, then you must re-enroll no later than November 20th or you will be placed back on Eversource’s Basic Service.

To re-enroll or change your product selection, call Dynegy at (866) 220-5696 or complete an enrollment form on the program site: <https://sudbury-cea.com/enroll-in-the-program/>. If you have any difficulties re-enrolling in the Sudbury Community Electricity Aggregation program, please email the Energy and Sustainability Committee at energy@sudbury.ma.us so that we can assist you.

The table below shows the new prices for our program compared to Eversource.

	Eversource Basic Service <i>(If you Leave the program)</i>		Sudbury Basic	Sudbury Standard <i>(Default)</i>	Sudbury Plus
Price	16.078 ¢/kWh (Residential)	17.251 ¢/kWh (Residential)	14.95 ¢/kWh	15.125 ¢/kWh	16.455¢/kWh
Voluntary Renewable Energy	Meets the state required minimum		Meets the state required minimum	Adds voluntary National Wind RECs to total 100%	Adds voluntary renewable energy (MA Class I RECs) to total 100%
Duration	July 2023 – December 2023	January 2024 – July 2024	Dec 2023 – Nov 2025	Dec 2023 – Nov 2025	Dec 2023 – Nov 2025

The municipality issued a press release with renewed program pricing as a method to notify residents and businesses of the upcoming program changes and their options to participate.
